

Name: _____ Date: _____

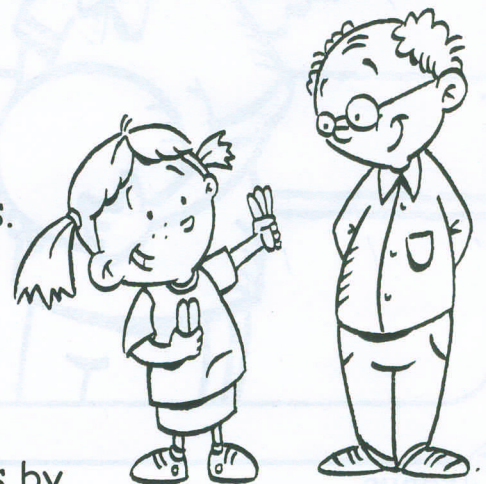

Dear Family,

In this unit, your child will be learning about addition and subtraction to 12.

The Learning Goals for this unit are to

- Learn more about the meaning of numbers.
- Recognize that addition involves joining groups and that subtraction involves taking one group away from another.
- Use counters and other real-life materials to help solve simple number problems.
- Practise using addition and subtraction to write and solve number problems.
- Describe the thinking involved in solving simple number problems.
- Use mental-math strategies to add and subtract.

You can help your child reach these goals by doing the activities suggested at the bottom of each page.
